

Topic

Dragonfly Habitat

High calcium marshes
Sedge meadows
Stands of cattails
Temporary ponds

<http://www.fws.gov/insects/hinsfct.html>

Resource

Dragonfly Habitat

www.livinglandscapes.bc.ca

peatland ponds- wetland with decaying moss and plants
springs- uncommon species only
streams- warm flowing water

Notes- not complete sentences, unless you are using a quote

You will need one card for each source and one card for each topic from that resource. For example, my topic card is **dragonfly habitat** with notes from **www.fws.gov**. If I also get **dragonfly habitat** information from **www.livinglandscapes.bc.ca**, I need a new card with the topic dragonfly habitat and the new resource.
